Projects

MY GAMES WEB

https://nsstudio-html.github.io/MY-GAMES-WEB/

Developed and launched a unified web portal showcasing a collection of browser-playable games (Car Game, Shang-Chi Game, RS Rising Shooters, Snake & Ladders, Bubble Shooter, Jet Fighter and more) using HTML, TailwindCSS for styling, and JavaScript for game integration. The site is built with a clean, mobile-responsive UI and lists "Coming Soon" titles to demonstrate project roadmap. Designed the overall architecture, navigation, theming and ensured seamless user experience across desktop and mobile.

PYTHON PROJECTS PORTFOLIO

https://nsstudio-html.github.io/PYTHON-DEVELOPER-PORTFOLIO/

Designed and built a full-stack personal portfolio website showcasing 16+ projects (web apps, AI tools, data-science dashboards) to highlight skills in Python, Django, Flask, front-end development and deployment. Developed a modern responsive interface, implemented clean navigation (About, Skills, Projects, Contact) and integrated live project demos and GitHub links. Hosted on GitHub Pages for public access.

UI PORTFOLIO

https://nsstudio-html.github.io/UI-UX-PORTFOLIO-NS/

Designed and developed a polished portfolio website showcasing UI/UX and front-end development skills. Built using modern web technologies (HTML5, CSS3, TailwindCSS/Bootstrap, JavaScript) with a focus on clean layout, responsive design, and interactive navigation. The site highlights my design process, key projects (UI/UX designs + full-stack builds), skills matrix, certifications, and downloadable resume—positioning me as a multidisciplinary developer-designer.
